PROFILE

Senior Product Manager with 20+ years' experience delivering and scaling complex software platforms across iGaming, payments, ad-tech, and SaaS environments. Proven track record leading cross-functional teams, shaping product strategy, defining platform domain models, and launching products across international markets.

Experienced in owning product roadmaps, platform modernization initiatives, integrations with large-scale third-party ecosystems, and conversion optimization for high-traffic transactional platforms.

SELECTED ACHIEVEMENTS

- Launched 2 additional casino brands on an internally developed iGaming platform
- Increased PayU platform traffic and transaction volume by 20%+ YoY
- Fully redesigned platform domain model enabling faster casino aggregator integrations
- Managed PSP platform operations across 5 international markets
- Worked on systems handling 2 billion+ hits/month

CORE SKILLS

Product Leadership: Product Strategy, Product Roadmaps, Stakeholder Management, Agile/Scrum, KPI & Funnel Analysis, Conversion Optimization, Go-to-Market Planning

Domain Expertise: iGaming Platforms, Payment Processing, PSP Platforms, Casino Aggregators, SaaS Platforms, AdTech

Technical: AWS, Jira, Confluence, Kibana, Google Analytics, SQL, Linux, GitHub, Figma, Cloudflare, Copilot, VS Code, Postman

PROFESSIONAL EXPERIENCE

Pragmatic Solutions — Payment Product Manager (Aug. 2026 – Present)

- Owned the product vision, strategy, and roadmap for an internal payments platform covering wallet management, PSP integrations, AML, and responsible gambling capabilities across multiple regulated markets.
- Drove development of wallet, bonus, payment, and compliance features to support operator growth, regulatory change, and operational resilience across jurisdictions.
- Managed PSP, gateway, and alternative payment method integrations while partnering closely with engineering, compliance, commercial, and account management teams.
- Defined a data-driven prioritization model and communicated product changes clearly to internal stakeholders and operator clients.

EZY Gaming — Product Manager Casino Platforms (Jul. 2020 – Jun. 2026)

- Product Manager for internally developed casino platform integrating payments, casino aggregators, sportsbook providers, gamification, CRM, antifraud, and operational tooling.
- Successfully launched 2 additional casino brands including go-to-market coordination and operational readiness.
- Reshaped the platform domain model to support faster onboarding and integration of multiple casino aggregators and third-party providers.
- Owned quarterly product roadmap, backlog prioritization, and business case evaluation.

PayU — Product Manager PSP Platform (Mar. 2015 – Dec. 2019)

- Product Manager for PayU’s PSP platform serving 5 CEE markets.
- Managed product backlog and roadmap across 3 Scrum teams.

- Increased platform traffic and transaction volume by 20%+ YoY through payment flow optimization and funnel analysis.
- Led conversion and checkout optimization initiatives.

EveryMatrix — Product Owner / Project Manager (Jan. 2013 – Mar. 2015)

- Led delivery of a next-generation data storage platform designed to unify communication between multiple EveryMatrix products.
- Contributed to redesigning the unified domain model for cross-product interoperability and scalability.
- Led development of reporting, invoicing, and reconciliation systems integrating multiple external vendors.

AdsWizz — Project Manager & Presales Manager (May 2010 – Jan. 2013)

- Managed delivery of integration projects for online audio and video advertising platforms used by global publishers and advertisers.
- Led technical presales activities, proof-of-concept validation, and enterprise client onboarding.
- Coached junior PMs and coordinated cross-functional delivery teams.
- Worked directly with international clients and participated in critical deployments, including onsite work in Denver, US.

GamMatrix at EveryMatrix — Project Manager (2009 – 2010)

- Managed development and delivery of SaaS gaming platform features including integrations, payment processing, CMS, and player management.
- Launched first 3 customers for EveryMatrix platform consisting of casino, sports, and poker integrations and various payment methods
- Coordinated distributed teams across Norway, Latvia, Romania, and China.
- Acted as the main communication bridge between customers, developers, and management.

AdFactory88 / PartnerMatrix at BetBrain — Project Manager (2007 – 2010)

- Managed development of dynamic advertising and affiliate platform later rebranded as PartnerMatrix.
- Worked on systems capable of sustaining over 2 billion hits/month with peaks above 3000 impressions/second.
- Built and coordinated distributed engineering teams across Romania and China.
- Presented the product internationally at major gambling industry conferences including ICE and CAC.

BetBrain.com — Marketing Coordinator & Sales Coordinator (2005 – 2007)

- Managed partnerships, distribution solutions, XML feeds, SEO initiatives, and localized versions of the platform.
- Coordinated media deals, advertising campaigns, and commercial partnerships.
- Generated and analyzed traffic statistics and supported growth initiatives for betting products.
